

Uninterruptible Power Systems

- 300 VA – 3,250 KVA
- Parallel and Isolated Redundant Systems
- System Output and Bypass Switchgear
- DC Flywheel Technology for UPS Systems

Power Management and Control

- Outlet Strips with Control and Monitoring
- Temperature and Humidity Probes
- Leak Detection Probe

Critical Infrastructure Monitoring

- Vendor Independent Site Monitoring
- Custom Design with Site Specific Floor Plans

Foreseer Critical Infrastructure Monitoring

Computer Room Equipment Cabinets

- Custom Data Racks and Accessories
- Open Architecture Rack Systems
- Technical Workbenches

Power Conditioning & Distribution Systems

- PDUs with Panelboards or Sub-feed Breakers
- 24" Remote Power Panels with 2-4 Panelboards
- Branch Circuit Monitoring
- Computer Power Cables
- K-rated, Computer Grade Transformers
- Voltage Regulators
- Stand Alone and STS/PDU Packages

9390 Comprehensive Built-in Monitoring

Automatic Transfer Switches

- 30-4000 amp ATS
- Residential, Commercial, Industrial
- Standby, Peak Shaving, Distributed Generation

Power Factor Correction

- Full line of MV and LV Solutions
- 1-15,000 KVAR

Lightning Suppression Systems

Transient Voltage Surge Protection (TVSS)

- Service Entrance and Panel Rated Systems
- Voice and data Line Protection

Metering Systems And Protective Relays

- Full line of MV and LV Solutions
- 1-15,000 KVAR

Harmonic Filters

- Tuned and Active Filters
- 1-15,000 KVAR
- Harmonic Mitigating Transformers

Services

- Battery Monitoring Systems
- Harmonic Distortion Surveys
- Battery Replacement and Spill Containment
- Load Bank Tests
